LEADERSHIP, INNOVATION AND ENTREPRENEURSHIP FOR HUMAN FLOURISHING.

At **PrepaTec**, we are looking for highly talented young people who are prepared to confront the current challenges and willing to find their vocation.

It's your time to discover!

1

2

3

4

DO YOU REMEMBER WHEN YOU DREAMED ABOUT BEING AN ADULT?

One day you grew up and realized that maturing and growing are not the same. You grow every day when you try something new. You might fail at times, but you always learn. You also learn at school, from people.

You have the opportunity to forge ties, to find a part of yourself in others.

Today, your childhood dreams are clear goals, and your powers are your talents. Inspiring others is your destiny...

Dreams create the future.

IT'S YOUR TIME TO DISCOVER!

WHAT MAKES US UNIQUE?

We know that just as the world is constantly evolving, so is your way of seeing things.

At PrepaTec, the way we teach adapts to these changes and offers you an education that will impact your life through a unique educational model that will be a key component in your journey to realize your dreams.

1

We know that you have the potential to transform the world, and would like to show you how the PrepaTec Educational Model can help you achieve this:

- You will experience an **authentic, experiential, relevant** and **competency**-based model.
- You will be guided by **transformative teachers**.
- Our **coverage is nationwide**, so there will be a PrepaTec near you.
- You will have the option of enjoying **international experiences** as part of your preparation.
- You will be able to choose the **academic program** that best suits your profile.

6

— COMPETENCY DEVELOPMENT

The gap between the problems that are solved in the classroom and those that occur outside no longer exists: competencies form a bridge between these two worlds. In every course at PrepaTec, apart from acquiring and mastering knowledge, students will develop diverse competencies, different ways of applying this knowledge in their daily lives.

- **Competency Development Report:** Students record their competency development process in this log, according to their individual learning profile and interests, based on concrete evidence and not just a passing grade. This log is the technical narrative of the unique journey that will enable them to solve problems successfully in the world in which they live.
- **Momentum:** In scientific terms, momentum is the impetus with which a body moves in a direction. In PrepaTec terms, it concerns an exposition, an account of the students' achievements up to their last day at high school and of the potential within them to continue fulfilling their goals.

6

AUTHENTIC

The classroom is the world; the problems to be solved are the needs of daily life. Apply knowledge and complete social and environmental projects? Yes. Our educational model is designed to help you discover your vocation and turn you into what you dream of being.

EXPERIENTIAL

At PrepaTec, you will experience collaborative learning based on challenges linked to professional fields and on projects that combine a range of activities, such as from programming an app up to its sales plan, while addressing and capitalizing on different styles of teaching and learning.

RELEVANT

In order to find solutions, you first have to understand the problems, and we're not talking about just any type of problems, but rather those that have a real impact on our environment. Our experience-based learning model makes this possible by incorporating different actors, internal and external strategic partners. Apart from strengthening competencies, this generates value proposals that address current needs and issues. The purpose is not to learn for the sake of learning, but to discover what you are going to do with all the knowledge acquired.

OUR PROFESSORS

PrepaTec's national faculty is made up of more than **2,300 educators at 34 schools**, who work as a network on designing learning environments, challenges, courses and projects with a cause and a positive impact.

53% have graduate studies

+100 foreign teachers in our classrooms

1

2

3

4

5

6

Our teachers professionalize their profile in teaching, multiculturality and mentoring, keeping up to date in educational and formative disciplines, such as:

- Didactics of the courses they teach
- Positive psychology and strategies to identify, regulate and manage emotions
- Teaching-learning strategies
- Promotion, recording and evaluation of formative, disciplinary and multicultural competencies
- Innovation, design and application of educational technology

PREPATEC NEAR YOU

Having a national network of high schools will allow you to drive your learning and enjoy:

Interregional fellowship: On forming part of PrepaTec, you will be able to participate in regional and national competitions, intercampus sports tournaments, and experience topics from different areas of study, in order to discover your vocation.

Types of programs:

- **Immersion:** The accompaniment and courses offered are the responsibility of the receiving school.
- **Tec Curriculum:** The accompaniment is provided by PrepaTec professors, who teach some courses.
- **Virtual:** Study a course online, taught by an international professor located abroad.

Almost **3,900** young people from all our high schools participate in an international educational experience accompanied by **296 professors at 50 schools in approximately 11 different countries.**

Around 4 in 10 of our students graduate with an international experience.

PRE-UNIVERSITY EXPERIENCE

The PrepaTec experience goes beyond studying high school; it is an opportunity to learn from our educational model and live the TEC ecosystem, **enjoying facilities** for workshops and sports spaces.

In this way, you will start to **develop the DNA** that characterizes our students, build a **unique profile** and discover your vocation through activities with projects that will bring you closer to the university experience.

Most PrepaTec students move on to study an undergraduate degree with us, while the rest study at prestigious universities abroad.

SCHOLARSHIPS

Tec de Monterrey's high school, aware of its responsibility to contribute within the context of education to the development of Mexico, offers a wide range of scholarships to students with the potential and drive to take their talent to the next level.

Each type of scholarship is awarded to young people according to their student profile or according to their family's financial status, and thanks to the contributions and commitment of our institution's donors.

The following scholarships are available:

Academic Talent Scholarship

Student Talent Scholarship

Socioeconomic Scholarship

STEAM Talent Scholarship

new

BENEFITS FOR YOUR FUTURE ENTRY TO UNDERGRADUATE STUDIES

On graduating from PrepaTec with a grade **average equal to or higher than 80**, you will be able to continue to enjoy more experiences at the Undergraduate level by just updating your application, paying your tuition advance payment and confirming your entry. For some programs, there are special requirements in addition to those mentioned above. The admission team can give you more information on these requirements.

If you graduate from PrepaTec with a grade **average lower than 80**, we will review your academic and extra-academic profile, as well as your skills in general, based on which we will let you know which requirements you need to fulfill in order to complete your admission process.

FAMILIES THAT TRANSFORM

PrepaTec + Your Family x You = Well-being

Within the context of the PrepaTec educational model, we consider that the role of parents is primordial in our students' educational process. As a result, we have spaces for sharing conferences, workshops, and congresses on topics related to adolescence and the development of social-emotional skills, which will facilitate more effective communication within the family.

In this way, parents will not only be aware of everything that is happening at PrepaTec, but also play an active role in your education, assuring your comprehensive preparation and personal development.
