INTERNATIONALIZATION AT THE TECNOLÓGICO DE MONTERREY

At the Tecnológico de Monterrey we acknowledge that today's society requires citizens with a global outlook, who show a high regard for diversity and have the ability to conduct themselves properly in different cultural contexts. Therefore internationalization has been for many years a strategic pillar of our institution.

In order to develop our student's intercultural skills, each campus promotes both the participation of international faculty members and student exchange opportunities with partner institutions around the world.
